

8th International Conference & Annual Meeting of the International Society for Porous Media

MAY 9 - 12, 2016
CINCINNATI, OHIO USA

Conference Format:

Plenary lectures given by keynote speakers followed by parallel sessions including invited and contributed talks. There will also be concurrent poster sessions and workshops.

Tentative Conference Topics

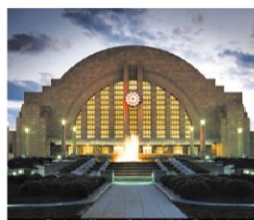

- Fundamentals of porous media
- Computational challenges in porous media simulation
- Experimental studies
- Environmental, technical and biomedical applications involving porous media
- Miscellaneous

Some Applications

Wicking in Textiles - Biological Tissues - Filters, Foams, and Membranes - Thin and Nanoscale Porous Media – Paper and Paper-Based Devices - Swelling Porous Media - Composites - CO₂ Sequestration, Petroleum Engineering - Groundwater, Biofilms - Ceramics and constructions materials - Fuel cells and Batteries - Food, Fibers, Wood

The City of Cincinnati – The Queen City

located in Southern Ohio, Cincinnati is recognized for its historic architecture. In 1800s Cincinnati became known as **The Queen City** for its beauty, public spirit, liberty and enterprise. Many major corporations have their head offices in Cincinnati such as Procter and Gamble and GE Aviation, among many others. Cincinnati is home to the University of Cincinnati and Xavier University.

The Conference Venue - Hilton Cincinnati, Netherland Plaza

Located adjacent to Fountain Square, the AAA Four-Diamond Hilton Cincinnati Netherland Plaza is in the heart of downtown Cincinnati. A National Historic Landmark, the hotel is one of the world's finest examples of French Art Deco.
